

FINANCE, OIL AND GAS

Pittsburgh

PITTSBURGH, March 1.—Westinghouse Electric was the weak feature of the Pittsburgh market. The stock declined to and closed at 47½, within a small fraction of the low price of the month and on the present capitalization. Westinghouse Air Brake remained extremely dull but steady at 14½.

Pure Oil was the only active member of the regular industrial list. On sales of 2,425 shares the stock advanced from 22 to 22½. Buying was based upon earnings for the fiscal year, submitted at the annual meeting held in Philadelphia, showing an increase of \$764,000 over the preceding year.

Sales.	High.	Low.

New York

NEW YORK, March 1.—Restraints imposed upon speculation by reason of the international crisis became increasingly effective yesterday, special stocks particularly munitions and equipments showing losses of 3 to almost 10 points. Selling of these stocks was suggestive of liquidation on the part of the timid or discouraged holders.

The setback gathered force from occasional attacks by the short interest, whose operations met with little resistance. At no time did the market manifest more than a slight degree of steadiness. Lowest prices were made in the final hour accompanied by rumors that German submarines had been seen in Cuban waters.

Bethlehem Steel issues registered the greatest losses, the old stock falling 9 points to 120, the new shares 7½ to 105½ and "rights" to the new stock declining 7½ to 6.

Grain and Produce.

CHICAGO, March 1.—Reports of extraordinary endeavors by the British government to facilitate shipments led to material advances yesterday in the value of wheat. Although unsettled at the close the market showed gains of 3½c to 3½c net, with May at 1.81½, 1.81½ and July at 1.54½ to 1.54½. Corn gained ½c to 1½c, oats ½c to 1½c and provisions 3½c to 1½c.

WHEAT	May	July
May	1.77½	1.81½
July	1.51½	1.54½
CORN	May	July
May	1.00½	1.02
July	.98½	1.01½
OATS	May	July
May	.56½	.57½
July	.54½	.55½

Oil and Gas.

The average size of the late completion in West Virginia field is light. There is no district, except the Berea grit development in Kanawha county, furnishing anything better than light pumps. On the waters of Pinch Creek, Elk district, Kanawha county, the Toeml Oil Company completed and

shot a second test on the Campbell heirs' farm. It is a Weir sand producer, good for 10 barrels a day and located 550 feet west of No. 1 on the same farm. On Mill Creek in the same district the Navajo Oil and Gas Company completed and shot in the Weir sand its test on the W. B. Lewis farm. This test is located one mile southwest of production on the Elk River oil Company's property.

On Big Creek, Big Sandy District, Kanawha county, the Ohio Fuel Oil Company drilled a test on the Levi Deel farm into the Big Injun sand and developed a gasser. This location is southeast of the South Penn Oil Co.'s test on the M. E. Deel farm. On Riley branch, in the same district, the International Coal, Oil and Refining Company is drilling at 2,050 feet at a test on the Rucker heirs' farm.

On Devil's Den fork of Leatherwood Creek, Union District, Clay county, gas operators are expecting to develop a new field. Recently a local company drilled in a gasser, with a capacity of 1,000,000 cubic feet a day. There is a large acreage in that section that has never before been tested. There is another well drilled and expected to get the producing formation—the Big Injun sand—within a few days.

On Indian Fork, New Milton district, Doddridge county, the Hope Natural Gas Company has completed tests on the William F. Nicholson and Florence Dennison farms. All are fair gasers in the Gordon sand. On the same stream and in the same district the Hope company has now drilled its test on the K. D. Nicholson farm through all sands. It is a duster, the hole plugged and abandoned.

INDUSTRIAL FAIRMONT

The tar paper foundation for the composition roof to be laid on the new Presbyterian church, is being placed today, and will be finished, weather permitting, in a few days.

The cornice work on the porch or portico or veranda or hanging garden or trellis or whatever it is that adorns the front of the new hotel, is being put in position. Men are working all the time in the interior, gas fires being burned to keep the temperature at a comfortable degree.

From Architect Burchinal's drawing of the new Deveny building, it appears that that structure is to be one of the handsomest to grace Main street. Of buff tapestry brick, relieved with white stone, it will be a new note in architectural decoration in Fairmont.

A superlatively sloppy job is that being done by the Traction company employees who are laying the new gas main down Coal run. At the lower end of the run, the men are forced to dig a ditch six feet in depth, where water is already standing to a depth of more than a foot. The laying of the pipe line is assuming the proportions of placing pliers for a river bridge.

GREAT GOLDEN

(Continued from Page 1)
votes it can be readily seen with what case this good natured battle of ballots will be waged and won. It is not by any means too late to enter the Golden Festival. What work has been done so far has been spread out among a great many candidates. Any one at all can enter this campaign today and secure enough votes to put themselves at the head of the list in less than an hour. Even the most casual observance of the vote list published in yesterday's issue will show this to any one. So why delay. Why don't you fill out the nomination blank and enter the campaign yourself? Might just as well win that \$1000 or the \$500 in gold if you wish. Certainly you will never get anywhere by trying to develop your wishbone when it is your back bone that needs the exercise.

LESS THAN A RUN A GAME RECORD

YOUNG GIANT PITCHER HAS TO SHOOT AT

By PAUL PURMAN

Following the most sensational performance in baseball pitching fandom this year will closely scrutinize the work of Ferd Schupp, Giant phenom, to see if his record of last year was the preface to a wonderful pitching career or a flash in the pan. Schupp permitted 90 runs per game working in 40 innings, 15 full games. Such pitching has never been approached. The nearest to it was Dutch Leonard's record of 1.01 runs per game in 1914, a mark believed almost unbeatable at the time.

True, Leonard worked in 35 games, that does not detract from Schupp's performance.

Walter Johnson chalked up 1.09 runs per game in 1913, those three being the greatest pitching records in modern baseball.

Schupp could not be expected to go through the 1917 season with such a pitching record, but with a scoring team even if he should allow 20 per cent. more scores per game he would

step to one side to allow young Lew McCarty to show off his wares. Walter Holke, the greatest infield find of last season, will be on first and youngsters will be given a chance to try out at practically every position, although it is not likely the veterans of last year will be displaced.

LEGAL NOTICES

TRUSTEE'S NOTICE OF SALE

By virtue of a Deed of Trust executed by J. W. Stiffler and wife and L. D. Snider and wife to Charles Lively, Trustee, dated March 19, 1915, and recorded in the office of the Clerk of the County Court of Marion county, West Virginia, in Trust Deed Book No. 38, page 265, to secure Fairmont Building and Loan Association the payment of the sum of Two Thousand Four Hundred and Seventy Dollars (\$2,470) and certain premium and interest thereon, and fully mentioned and described in said Deed of Trust, and default having been made in the payment thereof, and being requested so to do by said Fairmont Building and Loan Association, the undersigned Trustee will, on Saturday the 24th day of March, 1917, commencing at two o'clock p. m., offer for sale and sell, at the East front door of the Court House of said Marion county, West Virginia, by way of public auction and to the highest bidder, the property conveyed by said Deed of Trust; said property consisting of a certain lot situated in the city of Fairmont in said Marion county, in what was formerly known as the Hamilton addition thereto, and bounded and described as follows, to-wit:

Beginning at a street donated by Elmus Hamilton to the public, and corner to lot of land owned or formerly owned by Mrs. Columbia Abbott; thence with the line of said street N. 18 degrees W. 110 feet to the line of another street donated by said Elmus Hamilton to the public and thence with the line of said last mentioned street S. 72 degrees W. 85 feet to a stake; thence at right angles with said last mentioned street S. 18 degrees E. 110 feet to a corner to Abbott lot; and thence with the same N. 2 degrees E. 85 feet to the beginning, containing about 9350 square feet excepting and reserving, however, all of the coal underlying the real estate above mentioned and described, together with all mining rights and privileges thereto pertaining, and being the same real estate which was conveyed by W. A. Griffith and wife to L. D. Snider by Alice J. Reynolds and husband by deed dated September 24, 1914, and recorded in the Clerk's office in Deed Book No. 199, page 139.

Terms of Sale: All cash on day of sale.
